## SOFTWARE DEVELOPER

Shed A-1 Ashoka Garden Bhopal | namanjain8720@gmail.com | <https://naman-jain-portfolio.vercel.app/>

### SUMMARY

Freelance Web Developer with 4+ years of experience delivering front-end and back-end solutions to clients across India, Dubai, and Canada. Expert in modern web technologies (React, Angular, Shopify API), building scalable applications, and integrating AI-driven tools. Skilled at managing projects independently or collaboratively, with a proven track record in client communication, efficient workflows, and exceptional results.

### TECHNICAL SKILLS

Frontend:

HTML, SCSS, CSS, JavaScript, TypeScript, Angular, GSAP, SwiperJS, Locomotive, Bootstrap, Textilate JS, Canvas, Figma, Adobe XD

Frameworks/Libraries:

ReactJS, Redux (Saga & Thunk), React-Router-Dom, React Hooks, Firebase, PWA, Material-UI, Framer Motion, Daisy-UI, NextJS, Shopify API

Backend:

NodeJS, ExpressJS, MongoDB, PassportJS, MulterJS, NodemailerJS, Socket.IO, Cron

Soft Skills:

Effective Communication, Client Management, Adaptability, Problem-Solving, Team Collaborat

### PROFESSIONAL EXPERIENCE

Software Developer, Yuvasoft Solutions Pvt Ltd, Indore

July 2024 – Present

- Spearhead front-end development initiatives for international clients, applying cutting-edge UI/UX principles and modern web technologies, including Shopify API integration for scalable e-commerce platforms.
- Collaborate closely with cross-functional teams comprising designers, backend engineers, and business stakeholders to deliver robust and efficient web applications aligned with client requirements.
- Implement performance improvements and ensure code quality through rigorous testing and optimization, contributing significantly to client project success and product reliability.
- Provide mentorship to junior developers, fostering knowledge sharing and promoting best practices in front-end development.

Software Developer, Walkover Web Solutions, Indore

May 2023 – July 2024

- Played a key role in the development and enhancement of SaaS products, focusing on user-centric design and the integration of AI-driven features for enhanced process automation and customer engagement.
- Led the design and optimization of interactive user interfaces using modern technologies such as React and FastAPI, resulting in increased product adoption and improved user satisfaction metrics.
- Collaborated within agile development teams to align product enhancements with evolving client needs and market trends, ensuring timely and impactful feature delivery.
- Contributed to the architecture and scaling of GTWY.AI, an AI integration platform, by creating scalable microservices and real-time conversational AI features.

## **Mern Stack Developer, S.S. WealthServ Technologies Pvt Ltd, Bhopal      March 2023 – May 2023**

- Developed and maintained multiple scalable full-stack applications using the MERN stack, contributing to backend performance improvement by 20% through efficient database querying and code optimization.
- Automated critical business processes by developing custom scripts and APIs, reducing manual effort and increasing operational efficiency.
- Participated actively in daily stand-ups, code reviews, and sprint planning, gaining valuable hands-on experience in agile software development life cycles.
- Collaborated with senior engineers to troubleshoot, debug, and resolve technical challenges, demonstrating a strong learning curve and adaptability.

## **Freelance Web Developer, Remote**

**March 2021 – April 2023**

- Delivered customized, end-to-end web solutions for over 15 clients across diverse sectors in India, Dubai, and Canada, demonstrating adaptability and strong client relationship management.
- Led the design and development of highly interactive and responsive web applications using Angular, React, and Shopify API, significantly enhancing client digital presence and operational efficiency.
- Leveraged AI-driven tools and automation techniques to optimize delivery workflows, consistently cutting project turnaround times while maintaining high-quality standards.
- Managed full project lifecycles independently, from initial requirement gathering and system architecture design to deployment and ongoing post-launch support, leading to high client satisfaction and repeat business.
- Consulted clients on UX/UI best practices and integration strategies, resulting in improved user engagement and streamlined business processes.

## **PROJECTS**

### **ViaSocket**

#### **Creator & Lead Developer (ReactJS, NodeJS, MUI )**

Creator of viaSocket, an AI-powered integration platform connecting thousands of apps to help businesses automate complex workflows effortlessly. Leveraging cutting-edge AI, viaSocket simplifies app integration and management so users can focus on growing their business. The platform offers AI-driven app integrations, smart triggers and actions, and custom AI-enhanced workflows to optimize and automate routine tasks while reducing manual intervention. Features include an intuitive no-code interface, secure and scalable integrations with 5,000+ apps, and comprehensive support via Knowledge Base, Community, and Expert Team—empowering businesses to increase efficiency, reduce errors, and elevate their operations with intelligent automation.

### **GTWY.AI**

#### **Creator & Frontend Developer (JavaScript, NextJS )**

Creator of GTWY.AI, a platform built to make AI integration effortless via APIs and plug-and-play chatbots. Led full development at Walkover Web Solutions, simplifying complex AI workflows into intuitive developer tools. Developed scalable full-stack solutions with intelligent, user-focused experiences. Highlights include reducing deployment time by 30% through ML-powered automation, improving system performance by 25% via microservices architecture, building robust real-time APIs with FastAPI, and integrating conversational AI chatbots to enable human-like end-user interactions.

### **Sheet2WhatsApp Automation**

#### **MERN Stack Developer (ReactJS, NodeJS, MongoDB)**

Delivered an automation tool for fintech operations that processed custom spreadsheet data and dispatched personalized WhatsApp messages at scale. Reduced manual handling effort by 40%, improved reliability, and ensured regulatory compliance.

## Secure Mail System

### Backend Developer (NodeJS, ExpressJS, MongoDB)

Built a high-availability email platform supporting secure delivery of 5,000+ daily emails, strong user authentication, encryption, and comprehensive data protection features. Enabled secure team collaboration and automated key email workflows.

## EDUCATION

### Bachelor of Technology, ECE

Aug 2019 - June 2023

Sagar institute of Research and Technology, CGPA: 8.96

### Senior Secondary

July 2018- April 2019

Bhopal Academy school, Percentage: 83.5

### Higher Secondary

Sep 2016- June 2017

St paul sr. sec. co-ed School, CGPA: 7.0

## ADDITIONAL INFORMATION

- **Languages:** English, Hindi
- **Certifications:**
  - Frontend Developer by Sheryians coding school.
  - Backend Developer by Sheryians coding school.
  - React and firebase by Sheryians coding school.
